

This is the plant project. DATE 1/29/24

Timeline:

Lets work on this once a week for an hour. (please choose a time!)

Tasks to do together:

- System diagram - lets draw a block diagram of all of the control loops
- Specific plant species watering and light profiles
 - Please document the watering needs of the plant you want to use
- Please pick a plant you wish to use (keep in mind we wil keep it in the lab and therefor it needs to be small.
